I am thankful for your interest! This is a fun and passionate exercise for me, and I love to share! If you are thankful and want to support this art, you can :

- PURCHASE a Large Poster Print .
- DONATE via Paypal @ SIRLORQ.COM

Vulcan Tech Gospel is: Brian Thompson, Lorq Nichols, David Cantor, Noel Yee, Maiki Nope, Kory San, Alex Powell, Cassie McKenney, Pierre Baudin, and YOU.

Acknowledgments:

Many people's ideas, thinking, and work have gone into the making of these Tiles and this series. Thanks to Brian Thompson for teaching me Club Hybrids, for leading by example--notebooking and exploring,-- and for his brain. Thanks to David Cantor (Tank boy) for passing knowledge on the regular, as well as being a neutral and insightful sounding board. Thanks to Noel Yee (Master Splinter) for his fervor to teach, for teaching me transition theory, and for a heck of a lot of ideas and guidance toward making this information more understandable.

Thanks to everyone for a spark to the brain.

I'd also like to thank Maiki Nope for helping me understand 3D, which helps me understand everything better. Big thanks to "Alien" Jon Everett for helping me understand 64 patterns. Thanks to Matt "Poki" McCorkle for my first club workshop and for bringing character to object manipulation. Thanks to Ben Drexler and Pierre Baudin for hints at solving the position matrix puzzle. And many thanks to many more (for ideas and inspiration): Ronan McLoughlin, Kory San, Charlie Cushing, Valery from France, Maelle from France, Greg Maldonado, Ian Michael Smith, Arashi Seiraika, those who have come before, and those who will continue this work. Finally, I'd like to thank Erika Radcliffe for support, helpful hints, and space to be with the work I Love.

THIS BOOK IS ABOUT WAYS AND POSSIBILITIES OF MOVING THROUGH SPACE, WITH OR WITHOUT PROPS. IT IS MEANT AS AN INTRODUCTION TO PROP SPINNING THEORY. I MOVED TO THE VULCAN (OAKLAND, CALIFORNIA) 3 YEARS AGO AND DECIDED TO MAP ALL THE HYBRIDS. ALONG WITH MANY FRIENDS AND A LOT OF WORK, THIS IS THE RESULT. PLEASE, ENJOY, SHARE THE WEALTH, AND BY ALL MEANS... KEEP SPINNING.

TABLE OF CONTENTS

- 4: 4 KEYS TO RULE THEM ALL : HELPFUL THROUGH TILES
5: POSITION MATRIX: 64 PATTERN TRANSITION CHART

64 PATTERNS

ORGANIZED BY TIMING-DIRECTION OF HANDS

6: TOG-SAME HANDS	TS	TO	SS	SO	PROPS
7: TOG-OPP HANDS	TS	TO	SS	SO	PROPS
8: SPLIT-OPP HANDS	TS	TO	SS	SO	PROPS
9: SPLIT-SAME HANDS	TS	TO	SS	SO	PROPS

16 PURE PATTERNS

PROPS ALWAYS POINT BOTH OUT OR BOTH IN AT X OR Y

10: TOG-SAME HANDS	TOG-SAME PROPS
11: TOG-OPP HANDS	TOG-OPP PROPS
12: SPLIT-OPP HANDS	SPLIT-OPP PROPS
13: SPLIT-SAME HANDS	SPLIT-SAME PROPS

16 PROSPIN VS. ANTISPIN HYBRID PATTERNS

PROPS BOTH OUT OR BOTH IN ON Y-AXIS (UP/DOWN)

14: TOG-SAME HANDS	TOG-OPP PROPS
15: TOG-OPP HANDS	TOG-SAME PROPS
16: SPLIT-OPP HANDS	SPLIT-SAME PROPS
17: SPLIT-SAME HANDS	SPLIT-OPP PROPS

16 PROSPIN VS. ANTISPIN HYBRID PATTERNS

PROPS BOTH OUT OR BOTH IN ON X-AXIS (LEFT/RIGHT)

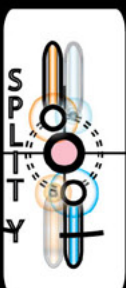

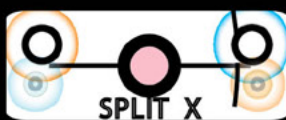

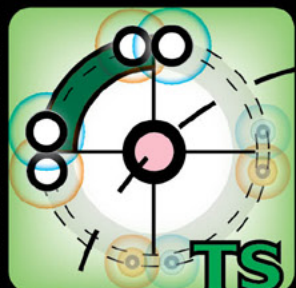

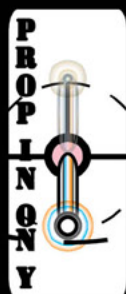

18: TOG-SAME HANDS	SPLIT-OPP PROPS
19: TOG-OPP HANDS	SPLIT-SAME PROPS
20: SPLIT-OPP HANDS	TOG-SAME PROPS
21: SPLIT-SAME HANDS	TOG-OPP PROPS

16 PROSPIN VS. PROSPIN OR ANTISPIN VS. ANTISPIN HYBRIDS

PROPS ALWAYS POINT ONE IN/ONE OUT WHEN PASSING X OR Y

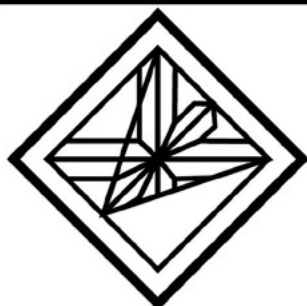

22: TOG-SAME HANDS	SPLIT-SAME PROPS	W
23: TOG-OPP HANDS	SPLIT-OPP PROPS	H
24: SPLIT-OPP HANDS	TOG-OPP PROPS	E
25: SPLIT-SAME HANDS	TOG-SAME PROPS	W

4 KEYS TO RULE THEM ALL: HELPFUL THROUGH TILES

Parameters:

- Two props rotate around two hands. Hands rotate around the shoulders (or elbows).
- The prop completes one rotation for every rotation of the hands (a 1:1 hand/prop ratio).
- The two hands are either pointing the same direction on an axis (Together), or opposite directions on an axis (Split), when passing the up/down (Y) or left/right (X) axes.
- The two props point together or split when passing an axis, and point in toward the heart or out away from the heart as the hands pass an axis.
- Hand path's radius is one prop length. Hand path size can be changed to change the visual.)

POSITION MATRIX: 64 1:1 PATTERN TRANSITION CHART

TECH TILES
SIR LORQ.COM

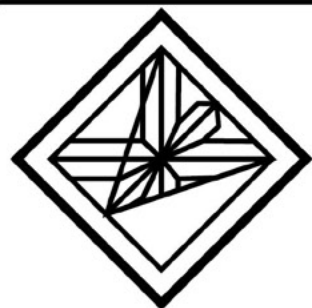

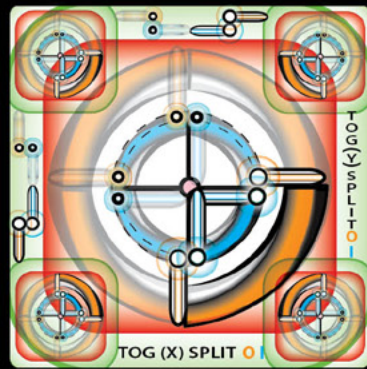

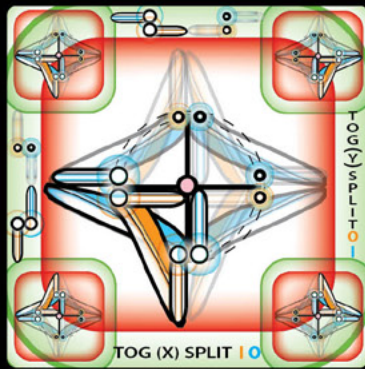

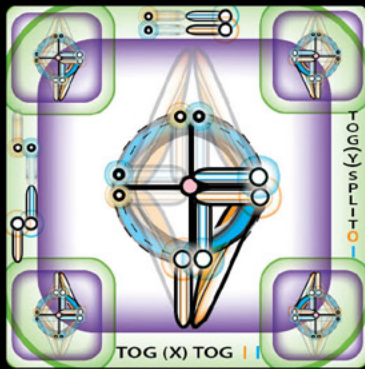

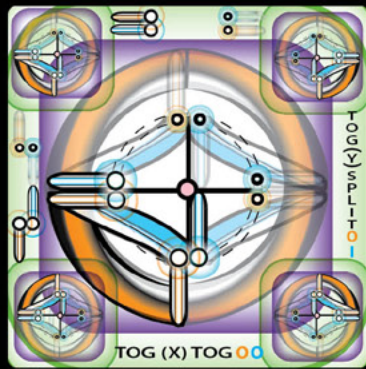

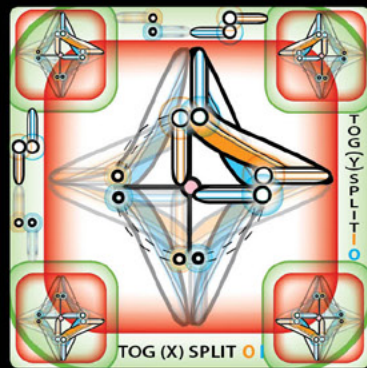

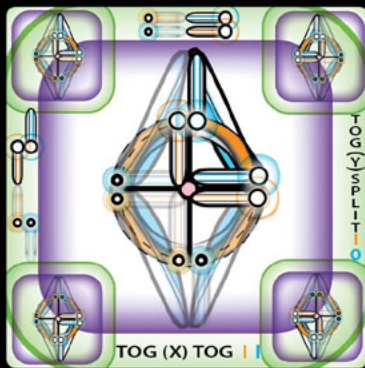

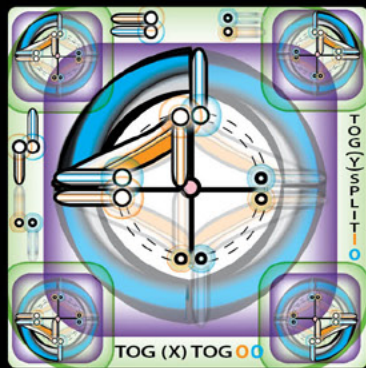

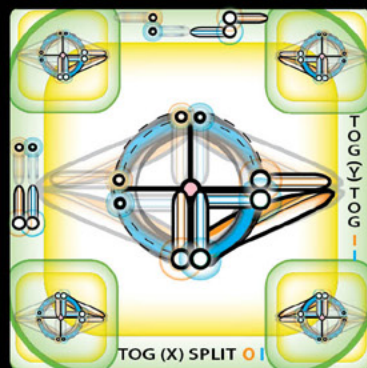

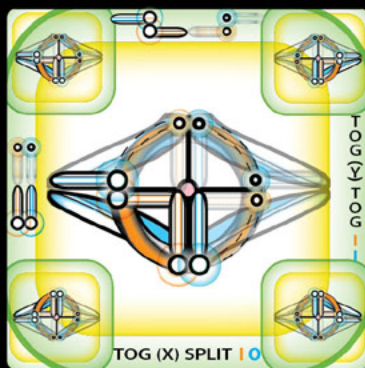

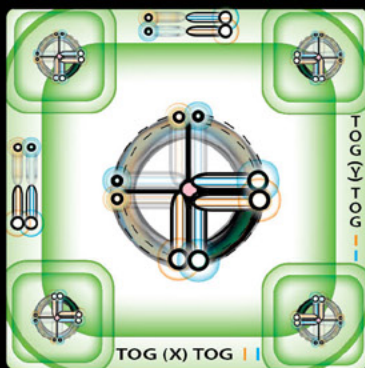

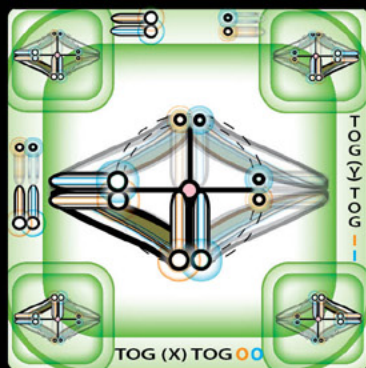

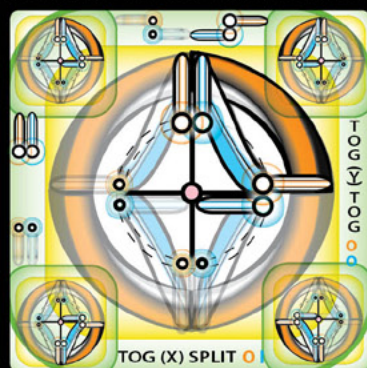

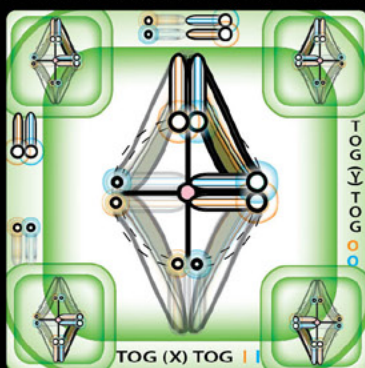

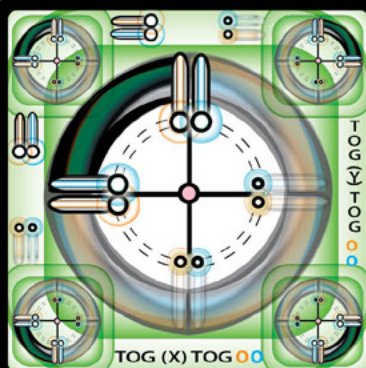

ROTATE the hands and props from a H.A.P.P. (Hand And Prop Position) on the vertical axis to a H.A.P.P. on the horizontal axis or vice versa-- (Y to X, or X to Y). **Continue the rotation of both hands and both props to complete a whole pattern and continue as desired.** 4 quarters of a pattern are shown in the 4 corners of a tile. This represents moving through the positions shown on the tile and continuing to the mirror positions. Change the direction of both hands and both props to move the reverse direction of a pattern. All patterns in a column up and down share a horizontal position and can transition into one another on the X axis. All tiles in a row left and right share a vertical position and can transition into one another on the Y axis. Each pattern can transition into 7 patterns in a column and seven other patterns in a row. From any H.A.P.P., we can move into 8 patterns. Including the smaller tiles, all possibilities are expressed. Play with transitions in circles using the tiles, or move however.
